

Dear our customer,

Thank you for dining at Yuki's Palette Japanese restaurant for a long time. Since we opened our small restaurant in Westbury in 1996, we have tried to serve the best authentic Japanese dishes; especially the fresh Sushi.

Unfortunately we are ending the history of our store in Westbury. I had been absent from my job because I've been treated for Leukemia starting in January, and we are not able to keep the business. At the same time the weak economy made our business down.

I fortunately had the stem cell transplant in August and came back to work on the weekend nights at Yuki's Palette too in Merrick. I'm hoping to start working more hours soon.

THANK YOU SO MUCH for supporting our business for a long time. We are really happy to serve you and see your face all the time. We will keep serving you at the Merrick store. We always want to make our customers leave with a happy face. Our spirit is not changed at all from the beginning, so please visit us in Merrick. We are open seven days for dinner. We hope to see you at Yuki's Palette too in Merrick.

Yuki Tamano and All staff
